M. Physio (Sports),
Grad Cert in
Management

Why join the Evado Studios group?

Support with professional development
Nurturing workplace
Grow and develop professionally and personally
Join our expansive team of professionals

Evado Studios, established in 2011, is a multidisciplinary health group dedicated to achieving exceptional client outcomes through clinical excellence. We have expanded to nine facilities and also consult at various medical clinics across Australia. Our studios are equipped with modern, commercial-grade rehabilitation and strength and conditioning equipment.

Credibility

You will be joining a team of experienced Sports and Musculoskeletal Physiotherapists in one of Melbourne's leading rehabilitation and strength and conditioning brands. Our Titled Physiotherapists are industry leaders and have been tutoring and presenting at Universities and APA professional development courses for over a decade.

Professional development support

We provide a very supportive professional development program, led by our Titled Physiotherapists. As part of our team, you will participate in scheduled 1-on-1 weekly meetings regarding your caseload, our monthly in-house team program, bi-monthly cross-clinic case conferences, as well as a fully funded entry into our Evado Education courses run by Specialist Physiotherapist Henry Wajswelner. We also provide an annual remuneration fund for approved APA courses.

Facilities

Our clinics are a one-stop facility for all rehabilitation and strength and conditioning needs. Our clinics boast private gym/rehab floor space and have the latest equipment to ensure patients have every opportunity to complete their rehabilitation.

Workplace

At Evado Studios, you will have the opportunity to collaborate with other professionals. These include our Myotherapists, Nutritionists, Massage Therapists, Exercise Scientists, Pilates Instructors, Strength & Conditioning Specialists and our Practice Manager and administration teams. Our team works closely together to provide our clients with the best care possible.

Career pathway

We have a clearly defined career pathway for our Physiotherapists. Regardless of your entry level, you will have the opportunity to progress your career from Associate Physiotherapist to Senior Physiotherapist, and even Practice Principal/equity partner should you wish to pursue business opportunities in the future.

We encourage all our Physiotherapists to consider post-graduate studies in their area of interest. Should you wish to pursue post-graduate studies, we provide a supportive environment and ensure a good balance between study and work.

About Evado Studios

Our mission

Give people the belief & confidence that they can take their health to the next level
evado /e:vrdo/ v. 1 (ascend, result, climb, escape, rescue)

Our values

We will endeavour to create a FUN environment so that exercise and recovery is a positive experience

We will always base our service approach on an ETHICAL evidenced based practice framework

Our TEAMWORK approach is crucial to fulfilling Evado's mission daily

We will ensure CLIENT OUTCOMES remain our first priority

We understand that mutual ACCOUNTABILITY between practitioner and patient is crucial in achieving desirable results

Our INTEGRITY will ensure that relationships are retained over the long term

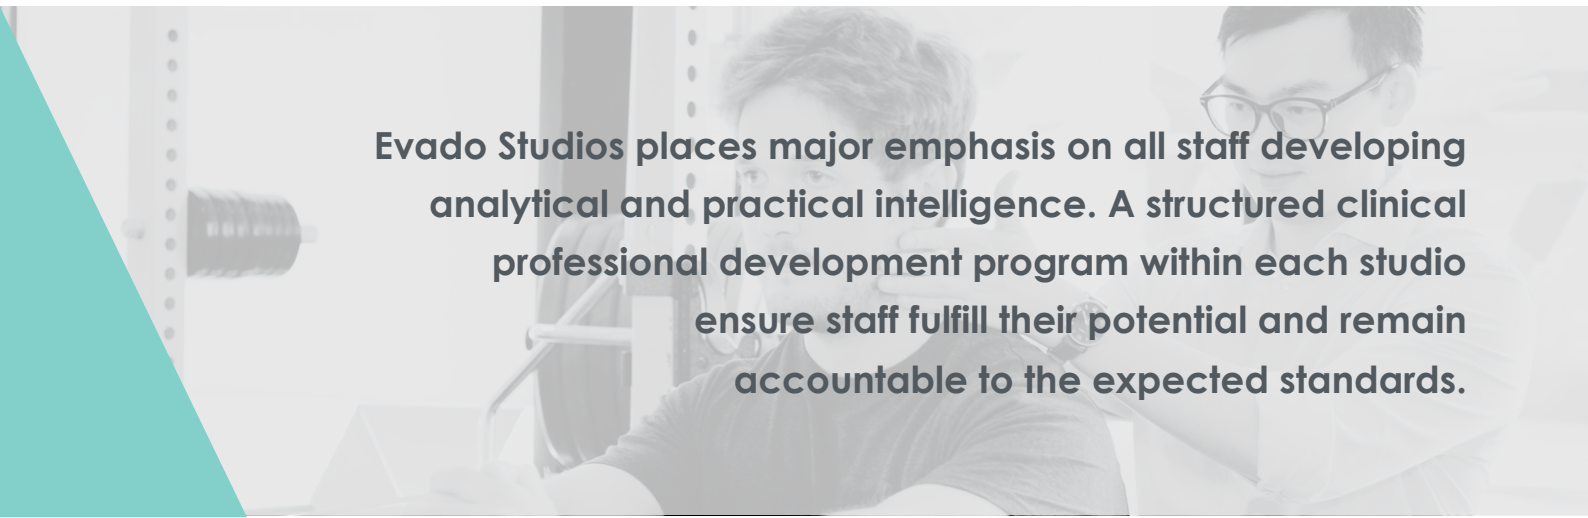

Clinical Pathway

Fitness Pathway

Graduate Induction Program

Evado Studios places major emphasis on all staff developing analytical and practical intelligence. A structured clinical professional development program within each studio ensure staff fulfill their potential and remain accountable to the expected standards.

We are passionate about professional development of each of our graduates:

- Weekly coaching and mentoring sessions to all physiotherapy staff
- Monthly team professional development sessions
- Documented clinical and fitness protocols and manuals
- 12 week thorough induction program outlining policy and procedures, as well as physiotherapy induction manual
- Financial assistance for applicable staff seeking postgraduate study
- Priority and subsidised inclusion of all Evado Education courses
- Opportunity to work with sporting clubs to increase sporting injuries awareness

We recognise the importance of personal development, and as such, have implemented the following opportunities to all staff:

- Development of organisational skills when managing a clinical schedule
- Working in a team environment with all staff
- Leadership mentoring of staff
- Career pathways in each of the clinical, fitness and administrative teams

"Physiotherapy, gym, rehab centre. It is what you need it to be. A bespoke facility that tailors an individual program for you which is then supervised by professionals. They have been so adaptive to my changing needs and all the staff know where I'm up to. And the atmosphere is great; friendly, supportive and encouraging. You are only competing against yourself so there is nothing to prove to your fellow clients so we all get along and have fun together."

Dr Robert D

Hawthorn Studio Client
